SCHOOL WARRANT

The State of New Hampshire

To the Inhabitants of the School District in the town of Middleton qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 10th day of March 1964, at the close of town meeting to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pays any vote relating thereto.

6. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.

7. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

8. To see what sum of money the district will vote to raise and appropriate for the purpose of purchasing the school bus: and to authorize the school board to borrow on the credit of the district a sum not to exceed \$7,500.00 by the issuance of serial notes; and to authorize the School Board to determine the terms and conditions upon which such serial notes are issued including the sale, the time and place of payment of principal and interest in accordance with the provisions of the Municipal Finance Act, Chapter 33, New Hampshire Revised statutes annotated.

9. To transact any other business that may legally come before said meeting.

Given under our hands at said Middleton this twenty-fourth day of February 1964.

ENID DiPRIZIO,
MARION STEVENS,
EVELYN DiPRIZIO,
School Board.

A true copy of warrant - Attest:

The State's share of the superintendent's salary for Supervisory Union No. 36 was \$4,000.00. The shares of the various districts were as follows: Brookfield \$86.86; Effingham \$314.55; Freedom \$326.25; Madison \$486.90; Middleton \$67.50; Ossipee \$1,167.75; Tamworth \$978.75; Wakefield \$1,071.45.

The amount of per capita tax paid by each district is as follows: Brookfield \$54.00; Effingham \$154.00; Freedom \$102.00; Madison \$176.00; Middleton \$154.00; Ossipee \$540.00; Wakefield \$490.00.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Middleton:

The current school year has seen changes of great importance to pupils and the school district. The action of the State Board of Education, beginning to implement the report of the interim Commission, dissolved Union #36. The school district of Middleton now is aligned with nine other school districts in an enlarged Union #44. This is in accord with the current trend to create larger administrative units whose combined wealth can provide greater educational services for the pupils of our schools.

The popular, attention-seeking, comments on the educational program are those of the critics of our system. It is easier to disparage any program than it is to evaluate the positive values. It is worthy of note that educational systems abroad (European) are taking in whole or in part our programs which attempt to provide universal educational opportunity. This is true of England, Russia and the Scandinavian countries. The so called "aristocracy of brains" is not being supported as it has been in the past.

In view of these facts it seems appropriate to review some of the recent developments in the American Educational system and program. The developments of a positive nature can be subdivided in many ways. Three areas can be touched on briefly in this report.

Curriculum

The changes in subject matter offerings, both in content and subject in the past decade are profound and far reaching. In the elementary school, science is a recognized part of the days program from the

first grade. New areas in geography and history untouched a decade ago are now generally accepted as part of the curriculum. Much greater depth is attempted and attained in these two areas. Mathematics has received a new emphases. The changes in this area are aimed at a greater understanding of basic concepts. The program will result in greater Mathematical progress for all pupils. The secondary program in science has been expanded. There are more subject areas being taught. In addition, the work in all science areas is much more intensive.

The introduction of different foreign language courses is indicative of a new vital interest in the needs of our civilization. The program in this area has had a change of emphasis.

In addition to the changes in the curriculum offerings, the changes in techniques of the teaching process have been extensive. This is due in part to the development of varied types of equipment. The use of television, projectors (motion picture, slide, overhead, opaque and micro) tape recorders and record players has been beneficial to both student and teacher. These tools have been used advantageously but educators have been experimenting with teaching techniques that are also making a direct contribution to educational progress. Team teaching, team learning, ungraded schools and advanced placement, are some of the techniques in more or less common use. All are designed to improve the educational program. Fundamentally, both the tools and techniques are implementing more fully the concept of individualizing instruction. They are basically designed to permit each pupil to progress at his own rate and to realize his highest potential.

Like all other professional groups teachers and administrators are raising the professional standards. This means in general that a better prepared and more competent person will be providing for the education of America's children who on little knowledge, indict the educational assets. In those areas where improvement is needed the profession and the public should strive cooperatively to affect the necessary adjustment.

It has been pleasant working with the School Board who are sincerely and conscientiously working to provide the best educational opportunity for the children of Middleton.

Respectfully submitted,

EVERTON H. PARKINSON
Superintendent of Schools
